1…2…3…Wrapp!

Here is a useful guide for you to make sure you get off to the right start!

1. To make sure you have enough pages printed. Use our handy calculator <u>here</u> to see how many A4 print-outs your need.

No waste! Simply print-off what you need by using your download at anytime!
printwrapp.com/print-out-guide

2. Prepare your even amount of sheets into a square face-down with a slight over-lap and tape together creating one large sheet of paper.

3. Place the gift onto your sheets. You're ready to wrap your present!

4. …and that's what they call a Wrapp!

If you need any more information or inspiration visit:-

For an even bigger WOW factor:-

- Always make sure your printer heads have been cleaned by your 'Printer Settings Menu'.

- Remember to set your printer to 'Good Quality' output & 'Scale to Fit' to fill entire page.

- We recommend 100 gsm paper, recycled, plain or coloured! As long as it's designed to go through your printer - experiment and see what different results you can create next time!
